GB12-TSH

Grill Brick

Scrubble® Products is the premier supplier of grill bricks to the foodservice industry. This product cleans HOT residue-encrusted grills quickly with little effort. Will neither scratch grill nor lift surface cure. Individually wrapped grill brick.

Item No	Size	Pk	Case Wt	Cu
GB12-TSH	8x4x3-1/2"	1/12	8.0#	1.80

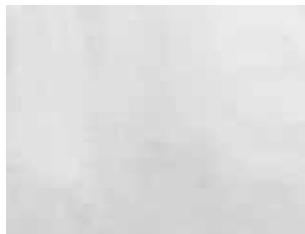

Paper Filters

AFCH1
10" Cone Holder

CONE-
DOUBLE THICKNESS
1. Stitched one edge.

SHEET-
SINGLE THICKNESS
1. Measure width and length.
2. If a hole is present:
A. Measure across the opening of the hole to determine the diameter.
B. Measure all sides to the outside of the hole to determine the position.

DISC-
ROUND WITH/WITHOUT HOLE
1. Measure diameter of disc.
2. If a hole is present:
A. Measure across the opening of the hole to determine the diameter.
B. Measure all sides to the outside of the hole to determine the position.

ENVELOPE-
DOUBLE THICKNESS with stitching on 2 or 3 sides.
These filters will come with or without holes.
If a hole is present, it will either be through 1 sheet or go directly through the filter.
1. Measure width and length.
2. If a hole is present:
A. Measure across the opening of the hole to determine the diameter.
B. Make a note if the hole is through 1 side of the filter or passes straight through both sides of the filter.
C. Measure from the closed or stitched points of the filter to the edge of the hole. You should have 3 measurements for the hole position when you've finished.

Mops, Brooms and Handles

MOP BASICS

ACS Products offers a wide variety of yarns to help you achieve your specific mopping needs more efficiently. The following information should assist you in selecting which mops are right for you.

YARN

The variety of mops is large because certain yarns are designed for a specific task. It's important to understand that selecting the proper yarn will enable you to achieve maximum efficiency.

CUT-END (Nonlaunderable)

These mops are more economical at purchase; however, cut-ends tend to fray, lint and unravel with steady use. This condition will lead to increased mop replacement.

LOOP-END

The loop-end mop performs more efficiently by resisting tangles without linting and fraying. These mops stand up to heavy use. Sewn-in tailband provides wide surface coverage without gaps. Some loop-mops may be laundered with care.

Yarn	Advantages	Disadvantages	Applications
Cotton	Good absorption and retention Low initial cost	Needs to be broken in Produces lints and is slow-drying	General Use
Blends	Ideal choice for performance durability and price Synthetic fibers add color	May shrink over time	Professionals who require a better, more durable mop
Synthetic	Synthetic yarn fights bacteria, mold and mildew while providing superior strength	Higher cost Not as absorbent	Clean rooms and rough surfaces
Rayon	Quick absorption and release Dries fast, is mildew resistant and lints less	Less liquid retention	Applying liquids for finishes and disinfectants

Cut-End Wet Mops

Natural, Narrow-Band, Cut-End

Made of premium quality cotton yarn for high-absorbency and longer wear. Narrow-band construction with cut ends. Each mop is individually packaged. Sewn-in label for easy identification and re-order. Narrow-band is 1-1/4" vinyl coated mesh. Available in a True Ounce Professional Series and Value Line for economic mopping.

Floor Pads

Type 52

Blue Velvet UHS Soft

Type 31

Aqua Burnishing UHS

Type 36

Pink Burnishing Eraser

Type 42

Beige Poly Thermal UHS

Removes black marks without removing the finish. Achieves a higher gloss level in heavy traffic areas. The UHS pad will yield more time between recoatings. Use with machines up to 3000 RPM.

A UHS pad that lightly polishes softer floor finishes. This pad is thick and soft. Ideal for top dressing to a reflective gloss. Use with machines up to 3000 RPM.

This UHS pad is designed to restore finish and improve gloss on harder floor surfaces. Removes marks and scuffs quickly. Excellent durability and minimal finish removal. Use with machines up to 3000 RPM.

Designed to stand up to the high heat and strength required with propane burnishing. This pad produces a very high gloss finish. Performs well on soft to medium surfaces. Use with machines up to 3000 RPM.

Hog Hair Pads

Type 33

Natural Blend Light

Type 30

Natural Blue Hair Blend

Type 35

Natural Hair Blend Medium

Type 37

Natural Hair Blend Heavy

A controlled blend of polyester and natural hair fibers makes this a versatile UHS pad. The lubricating effect of natural hair produces the wet look with soft finishes while providing strength and durability. Use with machines up to 3000 RPM.

A balanced blend of blue polyester and natural hair fibers makes this a top performing UHS pad. The lubricating effect of natural hair produces the wet look with soft/medium finishes while providing strength and durability. Use with machines up to 3000 RPM.

This is an aggressive burnishing pad that combines a heavy blend of natural hair with the proper amount of synthetic fiber. Best suited for medium to hard finishes with speeds up to 3000 RPM.

This is the most aggressive burnishing pad available. The ideal combination of natural hair and synthetic fiber to provide a wet-look shine. Best suited for hard finishes with speeds up to 3000 RPM.

Floor Pads

Type 45

Type 41

Type 34

Type 51

Peach Burnishing HS Auto Scrub

An aggressive open weave pad that is soft and thick. Designed to work with all types of floor finishes. It allows wax dust to be absorbed up inside the pad and not be spread around the floor surface.

Can be used as an ideal Auto Scrubber Pad, daily HS work or spray buffing up to 1500 RPM.

White Polishing

This popular extra fine pad is formulated for polishing clean, dry floors. A fine water mist is used to produce a high gloss wet look. This thick pad is ideal for polishing soft waves on wood floors.

Use with 175 - 350 RPM machines.

Tan Buffer

The perfect pad for light cleaning and dry buffering. Removes scuffs and black heel marks while producing a high gloss shine.

Use with 175 - 350 RPM machines.

Red Buffing

Restores gloss while removing scuff marks and dirt on medium traffic areas. Can be used dry or spray buffering to produce a sparkling shine. Ideal for automatic scrubbing.

Use with 175 - 350 RPM machines.

Type 53

Blue Cleaner

This pad is designed for wet scrubbing or medium-duty spray cleaning. Removes heavy dirt and scuff marks on most floor surfaces. This pad will remove the top layer of floor finish.

Use with 175 - 350 RPM machines.

Type 55

Green Scrubber

Our toughest duty, most aggressive scrubbing pad for heavily soiled areas. Best when used for wet scrubbing or light stripping. Very durable and long-lasting.

Use with 175 - 350 RPM machines.

Type 71

Brown Strip

A very strong pad for wet or dry stripping applications. Quickly removes wax, dirt and old finish leaving surface ready for immediate recoating.

Use with 175 - 350 RPM machines.

Type 72

Black Strip

Our most popular stripping pad designed for heavy-duty wet stripping. Very aggressive texture to remove wax, dirt and any finish. Tough, durable and built to perform.

Use with 175 - 350 RPM machines.

Floor Pads and Sandscreen

Type 75

Midnight Super Strip

Type 73

Emerald Hy-Pro Strip

Type 47

Redwood Conditioning/Strip

Type 57

Maroon FPP 2.0-Dry Strip

**NEW!
PRODUCT**

Highly abrasive and tear resistant with heavy-duty stripping power. Unique fiber blend for long lasting durability. Open weave design allows for flow through without build up and loading. Pads are 5/8" thick.

Use with 175 – 300 RPM machines.

Maximum abrasive content, tear resistant and long wearing. Wide open mesh construction allows solutions to flow through without loading and build up. Highly aggressive, 5/8" thick is the toughest of them all.

Use with 175 – 300 RPM machines.

The Redwood pad is a general purpose conditioning pad and is designed for stripping, cleaning and general surface conditioning. Best suited for roughing-up finish between coats. Thin Line pads are 3/8" thick and are packed 10 per case.

Use with 175 – 300 RPM machines.

Maroon FPP is a chemical-free stripping pad. Best used for dry stripping before coats and refinishing of wood/vinyl floor surfaces. Thin Line pads are 3/8" thick and are packed 10 per case.

Use with 175 – 300 RPM machines.

Rectangular Floor Pads

For use with all orbital floor machines. Cut from the same material as their round sibling and will produce the same results.

Diamond Edge Impregnated Floor Pads

Diamond Edge is a system of floor pads that cleans and polishes concrete, terrazzo & natural stone floors mechanically without the use of chemicals. Diamond Edge system consists of floor pads impregnated with billions of microscopic diamonds that will transform any dull, worn floor into a clean shining floor. The diamond abrasives come in different sizes that create different levels of aggressiveness, each one ideal for levels of cleaning and polishing. This system can be used on surfaces such as concrete, terrazzo, marble, ceramic and other natural stones as well as VCT when using the 1500 and up polishing pads. A Combo-Starter Pack of 1 each: 400, 800, 1500 & 3000 is available. Use with 175 – 350 RPM machines.

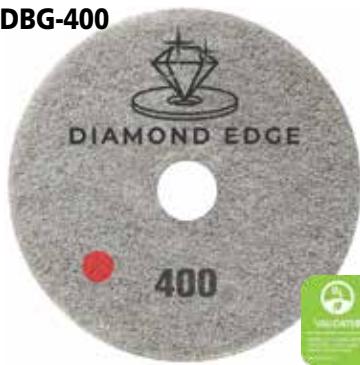

DBG-100

DBG-200

DBG-400

DBG-800

100 Grit Diamond Edge Pad

Our most aggressive diamond pad. To be used on damaged floors or after grinding. For heavy-duty removal of scratches and discoloration of the surface.

200 Grit Diamond Edge Pad

An aggressive diamond pad to be used on damaged floors or after grinding. For heavy-duty removal of scratches and discoloration of the surface.

400 Grit Diamond Edge Pad

An aggressive diamond pad to be the next step used on damaged floors or after grinding. For heavy-duty removal of scratches and discoloration of the surface.

800 Grit Diamond Edge Pad

An intermediate diamond pad to be the first step for bringing back floors not maintained on a regular basis. This pad cleans and removes small scratches. Leaves a slightly reflective finish.

DBG-1500

DBG-3000

DBG-8000

DBG-11000

1500 Grit Diamond Edge Pad

This diamond pad is for maintained floors. It prepares floors for high polishing while removing fine scratches. The 1500 can be used as your regular maintenance pad.

3000 Grit Diamond Edge Pad

The 3000 diamond pad produces and maintains a "wet-look" floor. Use it as your normal maintenance pad on concrete, stone, terrazzo, tile and even VCT.

8000 Grit Diamond Edge Pad

This diamond pad produces and maintains a "wet-look" shine. Use it as your normal maintenance pad on concrete, stone, terrazzo, tile and even VCT.

11000 Grit Diamond Edge Pad

The 11000 grit diamond pad produces the ultimate "wet-look" shine. Use it as your normal maintenance pad on concrete, stone, terrazzo, tile and even VCT.

Steel Wool

ACS Steel Wool Product line is professional grade

These pads are designed to provide the proper finish application. ACS Steel Wool Pads will out perform and out last most other types.

Choose Jumbo/Ribbon Style or Needled/Matrix Style depending upon your specific requirements.

All pads are individually bagged and labeled to make the re-sale as easy as possible.

Ribbon Steel Wool Floor Pads

This Ribbon Style floor pad is heavy-duty and long-lasting. The continuous ribbon construction is ideal for cleaning, scrubbing, polishing or finishing almost any type of floor.

Needled Steel Wool Floor Pads

This Neddled Style floor pad is ideal for polishing and buffing uneven floors. These pads are built tougher and stronger. They will not tear, shred or fray at the edges.

4" Wide Steel Wool 5 lb. Reels

Continuous wound steel wool designed for the professional.

Specialty Pads & Bonnets

Clean & Shine Pad

Cost effective floor maintenance is easy with just water and the Duala™ dual purpose, clean & shine floor pad under a low speed or autoscrubber floor machine. Duala™ will take a dull floor and give its surface a clean, bright look, removing surface marks and buffing to a bright shine.

Rough Surface Pads

A lightweight, flexible cleaning pad. Aggressive but not abrasive. Serged to secure the edges. A pad that replaces brushes for rough surfaces that would tear up a floor pad. The porous materials allow liquids to pass through to the surface.
