From aggressive stripping to high-gloss polishing, ACS offers a complete selection of pads to meet the demands of commercial, institutional, and industrial environments.

Burnishing

Type 52 –
Blue Velvet UHS Soft

Removes black marks without removing the finish. Achieves a higher gloss level in heavy traffic areas. This UHS pad will yield more time between recoatings.
Use with machines up to 3000 RPM.

Type 42 –
Beige Poly Thermal UHS

Designed to stand up to the high heat and strength required with propane burnishing. This pad produces a very high gloss finish. Performs well on soft to medium surfaces. Use with machines up to 3000 RPM.

Type 31 –
Aqua Burnishing UHS

A UHS pad that lightly polishes softer floor finishes. Best suited for soft to medium finishes, and for high frequency burnishing. Ideal for top dressing to a reflective gloss. Use with machines up to 3000 RPM.

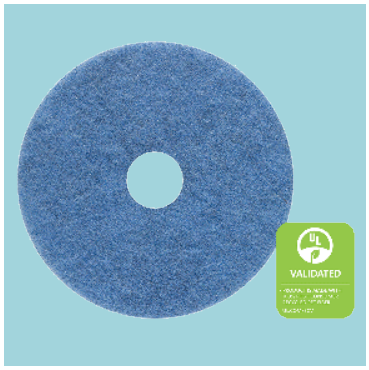

Type 36 –
Pink Burnishing Eraser

This UHS pad is designed to restore finish and improve gloss on harder floor surfaces. Removes black marks and scuffs quickly. Excellent durability and minimal finish removal. Use with machines up to 3000 RPM.

Type 33 –
Natural Blend Light

A controlled blend of polyester and natural hair fibers makes this a versatile UHS pad. The lubricating effect of natural hair produces the wet look with soft finishes while providing strength and durability. Use with machines up to 3000 RPM.

Type 30 –
Natural Blue Hair Blend

A balanced blend of blue polyester and natural hair fibers makes this a top performing UHS pad. The lubricating effect of natural hair produces the wet look with soft/ medium finishes while providing strength and durability. Use with machines up to 3000 RPM.

Type 35 –
Natural Hair Blend Medium

This is an aggressive burnishing pad that combines a heavy blend of natural hair with the proper amount of synthetic fiber. Best suited for medium to hard finishes with speeds up to 3000 RPM.

Type 37 –
Natural Hair Blend Heavy

Our most aggressive natural fiber pad with maximum natural fiber content. The ideal combination of natural hair and synthetic fiber to provide a wet-look shine. Best suited for hard finishes with speeds up to 3000 RPM.

Scrubbing and Cleaning

Type 41 – White Polishing

This popular extra fine pad is formulated for polishing clean, dry floors. A fine water mist is used to produce a high gloss wet look. This thick pad is ideal for polishing soft waves on wood floors. Use with 175 – 3000 RPM machines.

Type 34 – Tan Buffing

The perfect pad for light cleaning and dry buffing. Removes scuffs and black heel marks while producing a high gloss shine. Use with 175 – 800 RPM machines.

Type 51 – Red Buffing

For Daily Cleaning or Spray Buffing. Restores gloss while removing scuff marks. Use wet or when spray buffing to produce sparkling shine. Ideal for automatic scrubbers. Use with 175-800 RPM Machines

Type 45 – Peach Autoscrub

An aggressive open weave cleaning pad designed to withstand the downpressure of autoscrubbers. It allows soil to be absorbed and not spread around the surface. Use with 175-380 RPM Machines

Type 53 – Blue Cleaner

This pad is designed for wet scrubbing or medium-duty spray cleaning. Removes heavy dirt and scuff marks on most floor surfaces. This pad will remove the top layer of floor finish. Use with 175 – 380 RPM machines.

Type 55 – Green Scrubber

Our toughest duty, most aggressive scrubbing pad for heavily soiled areas. Best when used for wet scrubbing or light stripping. Very durable and long-lasting. Use with 175 – 380 RPM machines. Best when used for deep scrubbing or scrubbing and recoating.

Stripping Pads

ACS offers a complete range of high-performance solutions that increase efficiency, extend pad life, and deliver superior finish removal results.

Type 71 – Brown Strip

A very strong pad for wet or dry stripping applications. Quickly removes wax, dirt, and old finish leaving surface ready for immediate recoating. Use with 175 – 380 RPM machines.

Type 72 – Black Strip

Our most popular stripping pad designed for heavy-duty wet stripping. Very aggressive texture to remove wax, dirt, and any finish. Tough, durable and built to perform. Use with 175 – 380 RPM machines.

Type 75 – Midnight Super Strip

High abrasive content. Tear resistant. Unique fiber blend for long lasting durability. Open weave design allows for flow through without build up and loading. Pads are 5/8" thick. Use with 175 – 300 RPM machines.

Type 73 – Emerald Hy-Pro Strip

Our Most Aggressive Wet Stripping Pad with maximum abrasive content. Tear resistant and long wearing. Open web construction allows solutions to flow through without loading and build up. Highly aggressive, 5/8" thick. Use with 175 – 300 RPM machines.

Type 57 – Maroon

FPP 2.0-Floor Prep Pad

Quickly and efficiently strip or deep scrub damaged floor finish. Use wet or dry, Maroon FPP takes finish removal to the next level and improves facility safety by eliminating the need for harsh chemicals.

Why it earns the extra space in your line:

- **Chemical-free stripping:**
cuts labor time and eliminates the use, storage, and disposal costs that come with chemical stripping
- **Purpose-built for wood & VCT**:
preps floors cleanly and efficiently ahead of recoating
- **Consistent, even cut:**
durable web formation and abrasive application provides extended, uniform performance
- **Sustainable by design**:
UL Certified: 100% post-consumer recycled PET. A greener solution without a performance trade-off
- **Compatible with standard round and oscillating floor machines**:
Fits low speed up to 350 RPM and oscillating machines already in your customers' fleets

Type 47- Redwood Conditioning/Strip Pad

The Redwood pad is a general purpose conditioning pad and is designed for stripping, cleaning and general surface conditioning. Best suited for roughing-up finish between coats. Thin Line pads are 3/8" thick and are packed 10 per case. Use with 175 – 300 RPM machines.

Stripping Boots and Soles

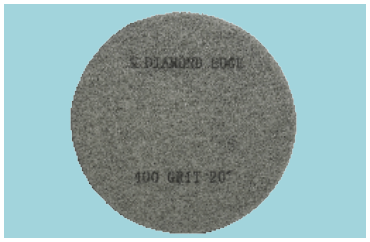

Reduce your risk of slipping while keeping footwear dry and safe from harsh chemicals.

Trapmaster

Dust Trapping Sheets

Standard dusting sheets shed fibers back onto the floor. Trapmaster doesn't. Built for particulate-sensitive environments, it delivers premium pickup and durability at a more accessible price.

Why it earns the extra space in your line:

- Won't shed fibers. Holds together through use, unlike typical sheet-type dusting products.
- Matches premium performance for less. Engineered to compete with higher-priced pads on pickup and durability.
- New dispenser box. Keeps sheets clean, contained, and easy to pull one at a time.
- Two sizing options. 5" x 6" and 8" x 6" sheets fit most existing dust mop hardware.
- Perforated for control. Minimize waste and maximize productivity.
- Fits existing routines. No special tools required.
- Leaves no sticky residue
- Effective on all hard surfaces from floor to ceiling
